New York, NY | 857-565-6192 | bergershahar10@gmail.com | [linkedin.com/in/shahar-berger1](https://www.linkedin.com/in/shahar-berger1) | [Portfolio](#)

TECHNICAL SKILLS

Product Management: 0-to-1 Product Development, Multi-Program Coordination, Roadmap Planning, Sprint Planning, Stakeholder Management (Internal & External), Cross-functional Leadership, Customer Discovery, Agile/Scrum.

Healthcare & Life Sciences: Biopharma Partnerships, Clinical Documentation Extraction, HIPAA, FDA Class II.

Tools: Jira, MS Office, Python, TypeScript (Next.js/React), SQL, AI Integration (RAG/LLM APIs), MATLAB, CAD.

PROFESSIONAL EXPERIENCE

System Engineer II | NxStage Medical (Fresenius Medical Care), MA | 2025

- Ran 18-variable MATLAB root-cause analysis on an on-market Class II Home-Hemodialysis device after a regulatory-driven material change; coordinated with R&D and Quality teams to deliver validated design modifications under MDR scrutiny.
- Designed and executed 6 system-level test protocols spanning mechanical, electrical, firmware, and software; maintained protocol documentation and status reporting with senior leadership.

Product Manager | GI View Ltd., IL | 2022-2024

- Managed 3 concurrent FDA Class II endoscopy device programs as Product Lead; owned roadmap, sprint planning, risk management, status communication and project documentation from concept through regulatory submission.
- Drove customer and clinical discovery with GI physicians and KOLs; translated workflow insights into product specs, demos, and roadmap prioritization for next-gen colonoscopy and gastroscopy devices.
- Coordinated cross-functional teams across R&D, Quality, Clinical, Regulatory and 4 external engineering consultants (optics, software, mechanical, algorithms); ran sprint planning and milestone delivery against fixed customer dates.
- Drove imaging-quality improvement of 90% through ML-based image processing and CMOS sensor calibration; shipped automated clinical-image evaluation tool used directly in FDA regulatory submission.
- Integrated endoscopy device with the AI diagnostic tool used by physicians during procedures; specified clinical-system interface and image-format requirements to ensure compatibility.
- Owned the camera workstream end-to-end as sole PM: defined specs, led external manufacturer negotiations, and designed the assembly process; CAD-hardware & software automation tools lifted production yield from 20% to 80%.

Product and Innovation Lead | TAU MedTech Hackthon (Synergy Innovate), IL | 2022-2023

- Co-founded a healthcare innovation org from scratch; managed 6 pharma and tech sponsor relationships (Teva, Philips, Amazon, Google, Microsoft, IBM) and negotiated data-access agreements that fed 6 innovation tracks.
- Coordinated 18 teams (~200 participants), 4 mentors, and 1 medical judge; delivered all milestones on schedule; org continues today as Synergy Innovate.

PROJECTS

Prior Authorization Assistant (RAG) | Personal Project | [Live Demo](#) · [Source](#) | 2026

- Shipped solo end-to-end RAG decision-support tool with clinician-facing UI in production (FastAPI + Next.js + Mistral); supports clinical reviewers in prior-auth review on payer policies and patient charts with full audit-trail.
- Built human-in-the-loop pattern with intent routing, evidence-strength fallbacks, and observability instrumentation.

LiDAR Motion Capture System | Wearable Medical Device | TAU Musculoskeletal Biomechanics Lab | 2023

- Designed and prototyped wearable iPhone-LiDAR motion capture system with custom MATLAB signal-processing pipeline; validated against Instron gold standard across 12 test subjects.

ML-Based Physiological Signal Classification | TAU Data Science Lab, IL | 2023

- Built ML classification pipeline (Python, scikit-learn) to analyze physiological signals from mobile sensors, achieving 85% accuracy; applied iterative feature engineering and performance benchmarking.

EDUCATION

Master of Science in Bioengineering | Northeastern University, MA | 2024-2026 | **GPA: 4.0**

Bachelor of Science in Biomedical Engineering | Tel Aviv University, IL | 2019-2023 | **Dean's List Excellence Award**
